Dear Premier Notley,

**Re: No More Parks needed in the Bighorn Area**

I am writing you to inform you that I see no need for any further parks in the Bighorn. The Bighorn is already protected by the Bighorn Backcountry Access Management Plan (2002). Changing these lands to a parks status will not provide any further protection while restricting select users for no reason.

The Bighorn is a favourite destination for a multitude of recreation activities. There is lot of hard work being done by volunteer groups to ensure that ALL Albertans will be able to camp, ride OHV's, horseback ride, and hunt on trails that protect water and land.

I support the Alberta Off Highway Vehicle Association 4-Point Plan to ensure funding for sustainable trails and programs to provide Albertans with a world class multi-use trail system.

Best regards,
